

May Distance Learning

Name: _____

Teacher: _____

With the Choice Boards we are using this time, students can also have the choice of doing assignments online. These have always been an option, but with the paper packets most people haven't had time to try the online things, too. If your child (or you) would rather log on to their accounts and do the math assignments on any/all of the three platforms listed below or read on their RAZKids account, please do so (remember, reading online counts as minutes for the reading log)! This chart will help you to keep up with everything, and will help us as teachers know to check your child's work online and to not look for as much paperwork. For writing, students can use the ideas on the Choice Board or make up their own. They can also use the Story/Book Creator apps on Clever or my class website. Just write the date and check off what was done that day!

Date	Math	Literacy	Writing	Other
